...temporarily remaining with the PCs, Istria states she will take Istria to her final rest whenever she is ready.

REWARDS

Istria provides PCs with as many goodberries as they wish. Dozen more goodberries to take with them when they leave. She can provide them with a pair of magic wands to use. One wand of produce flame (5 charges) and a wand of cause fear (5 charges).

In addition, Istria is grateful to PCs for showing her the elysian bronze longsword (or select another weapon appropriate to the setting) and a stanching elysian bronze breastplate. Both are relics of the south, taken by the villagers in battle with an invading army centuries ago (DC 15 Knowledge (history) check reveals the story). Since great Talduran Empire to the south, which briefly conquered the region, she does not know if they will be of any particular use. She does not know if they will be of any particular use. Fantastic DLC, dare I say the best added yet. Interesting mix of new units that explores a period of history seldom seen in games, and you can tell the devs took time to develop the factions with unique looks\units. And of course...Egyptians! 10V10 Highly recommend!. Mouse sensitivity is extremely high and there is no way of changing it in game.. A very simple but fun game creation software. It looks very old (because it is) but it's still easy to navigate. I suggest it to people that are new to RPG Maker, but I don't suggest it to people that use more recent versions of RPG Maker. It's also great for all ages.. Hahah this game is hard as hell and i love it the rythem the music the fighting A++ i love this game. very expensive and it's♥♥♥♥♥

Would it be 500 times easier if I could remap the jump button from SPACEBAR to W, otherwise a neat and challenging game for its relatively cheap price tag.. A very fun game that plays like a mashup of Dig Dug and Bomberman - avoid being seen by the guards and collect the keys as you blast your way to freedom. Although the main campaign only lasts for about three hours, the game does come with a level editor for replayability.. "Silentville" will probably fall short of other HO titles, but overall it's not bad; it can certainly provide a few hours of fun, doesn't lack in achievements and trading cards, and at its price it's almost a steal. If you're a HO games collector, this game is worth adding to your collection.. I enjoyed this game and was sad that it was so short. Only 3 hours for me. I liked the Arabian Nights theme with a mythical touch. I'm tired of horror, ghosts and asylum HOs!

Graphics were good, music was lovely (full orchestra) and dialogue amusing. Puzzles were fairly easy and HO scenes were few and far between I completely forgot about the palace markings, so missed that achievement!

I hope they make a sequel to this. 7.5 from me.. It was short but fun. i wish that the ending fractal pattern was turned into a screensaver
